

Kavyansh Vats

Bettiah, Bihar, India | +91 8709065562 | kavyanshofficial04@gmail.com | [Linkedin](#)

Professional Summary

Proactive Computer Science student with practical experience in full-stack development using React.js and Flask, alongside cloud computing proficiency with AWS services. Seeking challenging internship and freelance opportunities to apply skills in machine learning, full-stack development, and cloud-native solutions. Proven ability to design and deploy real-time systems that manage dynamic data and user interactions

Education

- **B.Tech in Computer Science (Core)**, VIT Bhopal University, Madhya Pradesh, India Achieved
- **CGPA 9.15/10** (till Semester 7), Expected Graduation: July 2027
- **Class 12th (CBSE)**, Jeewan Public School, Motihari, India | Earned **89.6%**, Completed: 2023
- **Class 10th (CBSE)**, St. Xavier's Higher Secondary School, Bettiah, India | Earned **95.2%**, Completed: 2021

Technical Skills

- **Languages:** Java, Python, SQL
- **Data Structures & Algorithms:** Proficient in applying DS&A to design and implement efficient, scalable algorithms.
- **Developer Tools:** Git, VS Code, Docker, LaTeX
- **Technologies/Frameworks:** Machine Learning (NumPy, Pandas, TensorFlow), Flask, React.js, Blockchain (Ethereum), HTML/CSS
- **CloudConcepts:** Amazon Web Service (EC2,Elastic Beanstalk, S3,Lambda,Amplify)

Projects

1. Pneumonia Detection Using Chest X-Rays | Machine Learning | Sept 2024 - Dec 2024

- Developed and trained a CNN model on 5,000+ X-ray images, achieving 92% accuracy in automated pneumonia detection.
- Achieved a 10% improvement in classification accuracy over baseline by optimizing CNN layers for X-ray image diagnosis.
- Boosted model F1 score by 8% by applying data augmentation (e.g., rotation, scaling) and normalization on training set.
- **Technologies:** Python, TensorFlow, CNN, OpenCV, NumPy, Pandas

2. LegalEase: AI-Powered Legal Assistance Platform- Blockchain, Machine Learning | Jan 2025 - Apr 2025

- Secured 500+ legal documents using blockchain-based notarization, ensuring tamper-proof verification and reducing data breaches by 15%; served as the sole blockchain engineer on notarization initiative.
- Built an NLP-driven chatbot handling 100+ legal queries/week, providing 85% accurate answers based on Indian law datasets.
- Achieved 90% precision in detecting tampered voice clips using FFT and ML classifiers on a 500-sample dataset.
- **Technologies:** Python, React.js, Flask, OpenAI GPT, Blockchain (Ethereum)

3. LocalMart - Local Store Inventory & Cart System - (Currently Working)

- Designed inventory dashboard used by 10+ shopkeepers to track 300+ SKUs, with real-time availability and pricing updates.
- Enabling 100+ customer interactions/month via user-facing cart system with user-facing cart system in React with on-the-fly bill generation
- Order details are sent to the respective shopkeeper for quick processing and fulfillment.

Certifications

- Introduction to Machine Learning Course, NPTEL (Silver + Top 5%)(May 2025)
- Certificate in Fundamentals of AI/ML,VITYarthi, Dec 2023 Certificate of
- Participation in AI Conclave, AI Club, VIT Bhopal, Feb 2024
- Certificate in Python, VITYarthi, Apr 2024
- Java Programming, VITYarthi, May 2025

Extracurricular Activities

- **Entrepreneurship Cell (E-Cell), VIT Bhopal (Jan 2025 - Present)** Volunteer at E-Summit 25, coordinating with event team, improving team collaboration
- **Bronze Medalist** in The Ultimate Tech and Sports Challenge (**Campus Event**) (**Feb 2025**)
- **PromptX Hackathon, CSI Student Chapter, VIT Bhopal | Participant | Mar 2025**
- **Creative crew of Qala'25**, Organized by Ekfraseis Dramatics Society | **April 2025**
- **Ekfraseis Dramatics Society | Event Anchor**
Hosted 'Rangmanch 2025,' the flagship cultural event, managing the program flow and engaging the audience.

Workshops:

Git and GitHub Workshop, Open-Source Club, Feb 2024: Git and GitHub Workshop...: Applied Git commands for version control and collaborated on open-source contribution workflows
Live Hacking Workshop, Shell n'Zell, OWASP Club, Feb 2025: Live Hacking Workshop...: Gained practical knowledge of web application vulnerabilities and cybersecurity principles.
